

LAU, Hon Hei (Hilson)

Hong Kong | +852 90221206 | hilsaga@gmail.com | Languages: Native Cantonese & Mandarin, Fluent English

PROFESSIONAL SUMMARY

AI-Driven Technical Product Manager / Full-Stack Developer / Business Analyst with 10+ years of end-to-end software delivery experience, specializing in **Fintech systems**, low-code B2B quant platforms, and **Agentic AI architecture**. Combines hands-on **Full-Stack Programming** capabilities (Next.js, React, Python, WebSockets, APIs) with a formal **M.S. in Statistics and Actuarial science background** to bridge complex quantitative risk models with scalable tech products. Proven track record scaling platforms from 0 to 30,000+ active users, integrating with major charting engines (TradingView, MultiCharts), and translating complex business requirements into high-value engineering specs.

CORE COMPETENCIES & TECHNICAL STACK

1. AI-Driven Product Management, Full-Stack Development & BA

- **AI Engineering & Workflows:** Agentic AI Architectures, Autonomous Agent Orchestration, ACP (Agent Communication Protocol), MCP (Model Context Protocol) Servers, LLM Tool Calling, Dynamic Prompt Engineering.
- **Frontend Engineering:** Next.js, React, React Native, TypeScript, Modern UI/UX Architecture.
- **Backend Engineering & APIs:** Python, Node.js, FastAPI, REST/WebSockets (Real-time financial feeds), Microservices, AWS Cloud Infrastructure.
- **Business Analysis & Systems Delivery:** End-to-end SDLC Management, BRD/FSD Creation, ERD & Schema Design, Agile/Scrum Governance, Quality Assurance (QA) & User Acceptance Testing (UAT).

2. Fintech Domain, Quant Trading & Broker Systems

- **Fintech & Broker Systems:** B2B Quant-Trading Platforms, Zero-Code Strategy Builders, Broker Supplied Systems (BSS) integration, TradingView & MultiCharts API Integration, Real-Time Market Data Feeds, Order & Execution Management.

3. Actuarial Science, Statistics & Risk Control

- **Data Science & Risk Analytics:** Mathematical Modeling, Statistical Analysis, Quantitative Risk Control, Algorithmic Backtesting.
- **Data Tech Stack:** SQL, MySQL, MongoDB, R, SAS.
- **Actuarial Foundations:** SOA/CAS Passed Exams (P - Probability, FM - Financial Mathematics, MFE - Models for Financial Economics, MLC - Models for Life Contingencies), VEE Validation (Corporate Finance, Economics, Applied Statistics).

4. Management & Strategic Communication

- **Leadership & Stakeholder Alignment:** Executive Leadership, Cross-Functional Team Management, KOL & Business Partnering, B2B Enterprise Sales Engineering, APAC Channel Expansion.

PROFESSIONAL EXPERIENCE

Garlican Tech Limited | Hong Kong — *Executive Director, Technical Co-Founder & Lead AI PM (Nov 2019 – Present)*

- **B2B Quant Platform Architecture:** Co-founded and architected a B2B quant-trading ecosystem enabling non-technical traders to compose, backtest, and execute algorithmic trading strategies with a zero-code visual builder interface.
- **Third-Party Charting & Broker Integrations:** Spearheaded API and WebSocket integrations with industry-standard charting engines (TradingView, MultiCharts) and Broker Supplied Systems (BSS), delivering sub-second execution logic and signal routing.
- **Agentic AI & ACP Workflows:** Architected custom Agent Communication Protocol (ACP) and Model Context Protocol (MCP) servers to automate multi-agent signal validation and market sentiment analysis within LLM networks.
- **Full-Stack & Real-Time Engineering:** Led frontend UI architecture (Next.js, React) and constructed asynchronous Python microservices for real-time order routing, risk checks, and streaming financial telemetry.
- **Product & Stakeholder Management:** Managed full SDLC, technical sales engineering for B2B institutional clients, client requirement gathering, and high-level platform roadmap planning.

Investtab.com | Hong Kong — *Operations Director & Systems Product Manager (May 2015 –*

Nov 2019)

- **Scalable Product Growth (0 to 30,000+ Users):** Directed system architecture, technical operations, and product expansion, scaling the financial analysis and real-time stock watchlist platform from zero to over 30,000 active retail investors.
- **Financial KOL & Media Partnerships:** Partnered strategically with top financial KOLs (such as MoneyTab) to translate proprietary market commentary and stock analysis methods into digital platform features and real-time market tools.
- **High-Availability Real-Time Data Streaming:** Architected high-concurrency real-time stock market data feeds, dynamic charts, and automated watchlist alert systems across web and mobile platforms (React, React Native, Node.js, Python).
- **Cross-Functional Leadership & APAC Growth:** Oversaw end-to-end technical roadmaps, budget allocation, database schemas (SQL/NoSQL), and B2B/B2C business channel expansion across the APAC region.

KPMG China | Hong Kong — *Assistant Manager (IT Advisory / Business Analysis) (Dec 2015 – Apr 2016)*

- **Business Analysis & Technical Translation:** Interfaced between enterprise client stakeholders and developer teams, translating complex financial and operational business logic into actionable technical specifications.
- **Delivery Governance:** Managed software delivery lifecycles, structured comprehensive User Acceptance Testing (UAT) schedules, and ensured smooth production deployment for major corporate clients.

GSMA Limited | Hong Kong — *Business Analyst (Customer Care & Registration – Event Technology) (Oct 2014 – Jul 2015)*

GSMA represents the global mobile ecosystem and hosts Mobile World Congress (MWC Barcelona / Shanghai), welcoming 100,000+ global industry executives.

- **End-to-End System Delivery Lifecycle:** Managed full technical delivery lifecycles for high-concurrency event registration and customer care platforms from initial scoping through final live launch.
- **Stakeholder Alignment & Discovery:** Coordinated system discovery workshops with internal business units and global vendors to enforce deadlines and streamline delivery schedules.
- **Documentation, Training & UAT:** Authored system documentation and runbooks; led technical training and structured UAT protocols across multi-tier registration platforms.

- **Onsite Operations & BI Analytics:** Provided high-availability technical infrastructure support onsite at MWC Barcelona and Shanghai; designed custom registration analytics portals and executive dashboards.

C2Square International LTD | Hong Kong — *Business Analyst & iOS Developer (Feb 2014 – May 2014)*

- **Technical Design & Prototyping:** Authored ERD diagrams, I/O specifications, and mobile app Proofs of Concept (POC) with SQL backends.

nxTomo Games LTD | Hong Kong — *Business Analyst (Feb 2013 – Feb 2014)*

- **Database & Dashboards:** Designed database schemas (Linux/SQL/MongoDB) and built real-time PHP analytics dashboards for executive reporting.

Century Beyond Intl Ltd | San Jose, CA, USA — *Programmer & Business Analyst (May 2010 – Nov 2012)*

- **POC & Software Development:** Developed custom web/mobile applications (HTML5/PHP/SQL) and transformed client business models into working software prototypes.

EDUCATION & QUALIFICATIONS

Master of Science (M.S.) in Statistics | West Virginia University, USA (*Aug 2004 – May 2009*)

Bachelor of Arts (B.A.) in Economics & Statistics (Double Major) | University of California, Davis, USA (*Sept 2001 – Dec 2003*)

Actuarial Examinations & VEE Validation

- **SOA / CAS Exams Passed:** Exam P (Probability), Exam FM (Financial Mathematics), Exam MFE (Models for Financial Economics), Exam MLC (Models for Life Contingencies).
- **VEE Validation:** Applied Statistics, Corporate Finance, Economics.
